MILWAUKEE DAILY SENTINEL.

VOLUME XV. MILWAUKEE, TUESDAY MORNING, DECEMBER 21, 1858. NUMBER 301.

THE DAILY SENTINEL.

TUESDAY MORNING, DEC. 21.

TO ADVERTISERS.

☞ Business Notices appearing in the Local Column, will be charged 25 cents per line for the first, and 10 cents for each subsequent insertion.
☞ Transient Advertisements must be paid for invariably in Advance.
☞ The number of insertions must in all cases be specified on the copy when handed in, as no "till forbid" Advertisements will be taken.
☞ Yearly Advertisers will be held strictly to Advertisements pertaining to their business. All other Notice will be charged at the Regular Rates.
☞ Extra displayed Advertisements, and those with large cuts, will be charged by the square for each insertion.
☞ Ordinary Notices of Deaths and Marriages inserted free of charge. Obituary Notices will be charged by the square, at half our usual rates.

RECEIVING BOOKS.

JUST MANUFACTURED, and for sale at the Sentinel Bindery, a superior style and quality of Forwarder's Receiving Books. Call and see, before purchasing elsewhere, as thereby you can save money. my26dtf

TALLY BOOKS

THOSE in want of Tally Books will please bear in mind that they can obtain them at all times, at the Sentinel Bindery, ready manufactured, and for sale cheaper than the cheapest. We have them of various sizes. my26dtf

The News.

We have a very full synopsis of the proceedings in Congress, yesterday, including the debate on the Pacific Rail Road.

By a despatch from New Foundland, it will be observed that the Atlantic Telegraph is not dead yet, and, if the information is reliable, it looks as if there was yet a *faint* hope of success—but we are not at all sanguine in regard to the matter.

Capt. Ludlow, of the U. S. mail steamer *Aerial*, was instantly killed on the 8th inst, by a heavy sea striking his vessel.

No change of importance took place in either our own or the New York market, yesterday.—Pork is reported lower at the East and dressed hogs are a shade higher here.

Yesterday was a mild, balmy day, more like gentle Spring than stern Winter.

THE FESTIVAL.—The arrangements for the Pioneer Festival, to be held at the Montour House, on the 21st of December, are nearly completed, and we have the satisfaction of announcing that they are on the most extensive scale. The programme will be worthy the occasion.

We would again say that the editorial fraternity throughout the State are invited, and if any fail through forgetfulness on the part of the managers, to receive complimentary tickets, they will be supplied on their arrival, by reporting themselves at this office. We hope to see the press well represented.—*Whitewater Register.*

The "Pioneer Festival" promises to be a very attractive affair. Our Whitewater neighbors will spare no pains to make it entirely successful. We hope that some of the old "Thirty-sixers" from Milwaukee, and others who came in later years, will find it convenient to visit Whitewater on this occasion.

MR. W. R. SELLICK.—The Ozaukee *Advertiser* copies from the *Sentinel* the paragraph which announced the entire exoneration of Mr. SELLICK from all knowledge of, or connection with, the Railroad ticket swindle of *Newman*, and adds this good word for SELLICK:

The above announcement has been received in this place with unfeigned pleasure and satisfaction by the friends of Mr. SELLICK, and these, we are happy to say, comprise the entire community. W. R. SELLICK has been long and favorably known in Port Washington and vicinity—in fact we might say that he was brought up here. The news of his arrest and the charges preferred against him caused a general feeling of regret amongst our citizens, but none believed him to be guilty. We are therefore happy to learn that the good opinion entertained of him by his friends in this place has been fully sustained, and his character placed beyond reproach, and if possible in a better light than before.

"THE MILK IN THE COCOANUT."—The Stevens Point *Pinery*, a zealous Democratic paper, offers the following explanation of a noticeable peculiarity in the *News*:

The Milwaukee *News* about once a month essays a vindictive squib at Senator Jones, of Iowa; it renews the puerile effort this week.—☞ Senator Jones refused to vote for the Editor's confirmation as Post Master last winter.

News from the Gold and Silver Mines.

After we went to press last week, we received a call from Mr. Davis, who left the gold mines at Cherry Creek on the 12th of November, and returned in company with A. J. Smith, whose return we noticed last week. Mr. Davis is a resident of Sarpy county; he left this city for the gold mines about the 25th of September, reached the place of destination after innumerable vexatious delays, from lame teams and other causes, about the 27th of Oct. Mr. Davis is well known in this community; is a gentleman of respectability and honor, and his statements are entitled to the fullest belief. In company with A. J. Smith he spent nearly a fortnight prospecting in the mines with the most satisfactory results. Gold was found at every place tried, from six inches to two feet below the surface of the ground, and in quantities varying from ten cents to one and a half dollars per pan full, generally in the form of small scales. A specimen of about an ounce, which he exhibited to us, was of this description, and resembled in appearance the finest quality of California gold. Mr. Davis informed us that miners were washing out, with a pan, from four to five dollars per day, and his own experience in prospecting satisfied him that at least that amount could be made with a pan, and from ten to twenty dollars per day, or more, could be realized with the aid of "sluices," or "long toms."

ADDITIONAL DISCOVERIES—SILVER MINES IN NEBRASKA.

Capt. A. J. Smith, whose return from the gold mines we noticed last week, informs us that a company of Georgians, who have spent considerable time in prospecting in the mines of Nebraska, discovered in the vicinity of the Medicine Bow River, a tract of country, thirty miles in extent, so rich in silver ore, that they determined on working it in preference to the gold diggings in its vicinity. It was supposed that the silver mines alluded to would pay equal to the best Mexican mines, as it was found in immense quantities, in the region we have described. The locality, of these mines is about five hundred miles a little Northwest from this city.—*Omaha Nebraskian, Dec. 8.*

DARING VILLAINY—A BANK PORTER ROBBED OF $1,400 IN THE STREET, IN DAYLIGHT!—A most daring act of successful villainy was perpetrated in this city on Saturday afternoon, about five o'clock—The boldness of the act being without precedent in our annals as a city. At the hour named, as the bank-porter of Messrs. B. W. Phillips & Co., whose office is in the basement of the Marine Bank, on Lasalle street, was passing through the alley in that block, his nearest route to Dearborn street, with a package of $1,400 in bills, on his way to leave it at the American Express Office, he was suddenly assailed and felled to the earth with a slung shot, and his package seized by his assailant, who took to his heels.

The porter, though somewhat stunned by the force of the blow, sprang to his feet, and gave chase to the ruffian, who ran down the alley, out through the vacant burned lot to South Water street, thence to the dock, and out upon the ice, the porter following, using at once his legs and voice, a number of citizens, thus attracted, joining in the race.

The robber, however, made good his clearance, and got safely off, though it is hoped he may be taken.—*Chicago Press & Tribune, of yesterday.*

☞ The number of emigrants arrived at New York, for the week ending the 15th inst., was 598—making a total of 75,989 since the commencement of the year. The arrivals for a corresponding period in 1857 numbered 182,802. The effect of the financial revulsion, both in this country and abroad, is plainly to be seen in the remarkable falling off in the tide of emigration since last year. The total up to January 1st, 1859, will probably not be over 77,000, while that of 1857 was about 183,000.

SENSIBLE ADVICE.—The New York *Herald*, the only administration paper in the city of New York, thus admonishes the Washington *Union*:

The *Union* had better give up endeavoring to explain great questions, and stick to its pap, at least until it has cut its teeth.

TO THE PUBLIC.

"Competition is the Life of Business."

Printing at Prices that "Defy" Competition!

THE PROPRIETORS OF THE
Milwaukee Daily Sentinel
PRINTING HOUSE,
Are determined
NOT TO BE OUTDONE IN LOW PRICES!

And that this PIONEER ESTABLISHMENT shall maintain the enviable reputation, which it is justly entitled to, as being the oldest, largest and
MOST COMPLETE PRINTING CONCERN
IN THE STATE!!

They are constantly adding to their heretofore superior facilities, and "defy" the MEANEST competition; and therefore INVITE ALL in want of any description of
PRINTING OR BINDING,

After getting the prices of every other concern in the city to give them a call. The times are indeed hard, harder, hardest, and it "behooves everybody" to save their money. "*One penny saved is better than two earned.*" "Everybody" knows that!!

With the immense circulation of the SENTINEL—being double that of any other paper in the State—together with no advertising patronage equal *to all the other city papers combined*, they are not dependent on their Job Rooms to meet expenses; therefore are enabled to do Printing these "hard times,"

Below the Lowest Competition!

And if necessary, at prices that will barely cover cost of labor and material. We say again: see what *you can get your Printing done for*, then call at the SENTINEL Job Rooms, and it'll
MUCH CHEAPER,
And in the VERY BEST STYLE of the "Art Preservative of all Arts."

☞ RECOLLECT, ☜

The SENTINEL has a first class Bindery, and is prepared to do all kinds of ruling, and manufacture every description of blank books, for Rail Roads, Bankers' Counting Rooms, Counties, &c, &c., of the very best material and at "Hard Times" prices. This is no gammon TRY US AND SEE.
JERMAIN & BRIGHTMAN, Proprietors.

PUBLIC SCHOOL EXAMINATIONS.—The examination in the Second Ward High School commences *this* (Tuesday) morning, and will continue for three days. On Friday there will be Declamations and other exercises.

The examination in the Seventh Ward High School will commence on Wednesday, and occupy two days. Declamations, Essays, Music, &c., will be interspersed throughout all the exercises.

Our City Authorities, parents having children at the Schools, and others interested in the cause of Popular Education, are earnestly invited to attend and judge for themselves as to the claims of our Public Schools upon the liberal support of the Tax-Payers of Milwaukee.

THE LOST LORDS ARRIVED.—Lords Cavendish, Grosvenor and Ashley, the young English Lords who were reported to have been lost on the Red River in a skirmish with the Indians a few days since, arrived safe in town last night. They came down from Pembina on a dog-train, in company with the Canadian surveying party, before mentioned in our columns. One of their party remains, who will winter in the settlement, and explore the Saskatchewan next summer.

The Lords appear to be perfectly satisfied with their experience of winter on the Northern frontier, and will leave this morning for the East by Burbank's Line, and proceed immediately home.—*St. Paul Minnesotian. Dec. 17.*

Lords CAVENDISH and GROSVENOR, and Mr. ASHLEY, arrived in our city, yesterday noon, by the La Crosse and Milwaukee Railroad, and after a brief stop at the Newhall House, for dinner, pursued their journey Eastward. They seem to have "roughed" it, during their trip to the North-West, and are, no doubt, all the better for the journey.

WENONA BOAT CLUB—ANNIVERSARY SUPPER.—The members of the Wenona Boat Club had their Anniversary Supper at the Albany Restaurant of H. E. DICKINSON & Co., on Saturday evening last. The entertainment, which was got up under the immediate eye and direction of that experienced caterer, Major FIELD, included all the varieties of game, with which our market is now so well supplied, as well as Brook Trout, just caught near Boscobel, and Shrewsbury Oysters, fresh from New York. There were several invited guests present, among them Capt. MITCHELL, of the Revenue Cutter *A. V. Brown*, and Capt. STARKWEATHER, of the Milwaukee Light Guard. The festival was protracted until a late hour and the evening passed away most pleasantly.

HOLIDAY GIFTS.—We were completely dazzled with the array of beautiful articles designed for holiday gifts which met our view on stepping into STRICKLAND & Co.'s bookstore yesterday.—Let us enumerate some of the articles, exclusive of their elegant assortment of books, which these gentlemen have for sale: Ladies' and Gents' dressing cases, odor cases of various descriptions, perfume vases and writing desks, jewel cases, glove boxes, antique perfume cases, inlaid cigar stands, baskets of artificial fruit and papier mache albums, morocco antique and gilt portfolios, antique work-boxes and dressing mirrors, stationary, oil paintings and engravings, backgammon boards, Chinese, English and American chess, &c., &c. Those who intend to gladden the heart of some friend, old or young, with a handsome Christmas or New Year's present, will hardly fail to find something suited to their taste at STRICKLAND'S.

STRICKLAND & Co's ALMANAC.—We have received a copy of the North-Western Almanac, for 1859, published by Messrs. STRICKLAND & Co., Booksellers of this city, and calculated for the Horizon and Meridian of Milwaukee. In addition to the usual astronomical information, it contains a very useful and comprehensive chronological table, a complete list of our city and county officers, a table showing the stations and distances by Railroad on the various lines diverging from Milwaukee, together with a full account of Mr. STRICKLAND's second visit to Mobile, and a re-hash of his personal grievances in that city, which candor demands we should say is by far the least interesting part of the book. It is neatly printed and its contents are well arranged.

MUSICAL SOCIETY—NINETY-FIRST CONCERT.—Our Musical Society announces another of their excellent Concerts at Young's Hall, *this* evening. The programme, which will be found in our advertising columns, includes a number of musical gems. WEINBERG will give us one of his admirable violin solos, and one or two of the choruses are superb. If there is an "institution" in our city that deserves the hearty encouragement and liberal support of the Milwaukee public, it is the Musical Society.

PREPARING FOR THE HOLIDAYS.—Many of the German Toy Shops in our city are already decorated with evergreens, in honor of the approaching Holidys. We noticed in the streets, yesterday, several loads of evergreens for sale. We should judge that they will find plenty of customers.

WOOD AND HAY.—Market Square and Market street, for one or two blocks, were crowded with teams, yesterday, loaded with Wood and Hay.—The supply exceeded the demand and buyers made good bargains.

POLICE COURT SATURDAY AND YESTERDAY.—Stephen Cooley, intoxicated and disorderly, fined $25 and costs, and committed to jail in default of payment.

John Youngman, disorderly, fined $1.

Michael Spelling, convicted of larceny, and sent up for 15 days.

Charles Shallack, examined on a charge of bastardy, and required to recognize in the sum of $350 for his appearance before the Circuit Court.

James Somers, committed in default of $600 bail for his appearance before the Grand Jury on the charge of stealing an overshoe, of the value of $2.

John Hertell, convicted of stealing a pair of boot tops, the property of Bradley & Metcalf, was fined $10 and costs.

J. G. Coon, fast driving on street, was fined $5.

Rodney Gould was fined a like amount for a similar offence.

Yesterday, Michael Lynch was arraigned on the charges of being drunk and disorderly, and beating his wife, and was sentenced to 30 days imprisonment for his misdemeanors.

George Smith, was convicted of stealing a pair of boots, of the value of $2,50, from a dwelling house, and committed in default of bail, to await the action of the Grand Jury.

John P. Lynd, charged with disorderly conduct, case adjourned, at the request of the defendant, one day.

Wm. Hess was convicted of violating the ordinance prohibiting butchering within the city limits, and judgment suspended, subject to good behavior of defendant.

SALOM'S STATE MERCANTILE COLLEGE.—It is an evidence of the merits of this institution, to learn that the number of students now attending it is nearly double that of the corresponding period of last year. Of this we are not surprised, as from the numerous evidences of its excellent management, which have personally come before us, it must have taken deep root in the esteem of the community. Since we last alluded to the College, we understand that the course of studies has been much benefited by the accession to the professional ranks of Mr. ALBERT MORTON, the well-known teacher of penmanship. Mr. M. has won the reputation of being no less successful as a teacher, than as an artist. The lecture department is not by any means neglected. Among the lecturers appointed for the next year, we perceive the names of two rising members of the Milwaukee Bar, E P. HOTCHKISS and JAMES MITCHELL, whose discourses upon the subject of Mercantile Law, will doubtless be the source of much interest and instruction to the Students. The success Mr. SALOM is enjoying is but a just reward for his industry, perseverance and enterprise.

THE NEW FREIGHT WAREHOUSE.—In speaking of the new freight warehouse, going up near the Depot of the Milwaukee and Mississippi Rail Road, a few days since, we erroneously stated that it was being built by the Rail Road Company, and all our cotemporaries, with the exception of the *Free Democrat*, have made a like mistake. The builders of the new warehouse are Messrs ANGUS SMITH & Co., the owners of the large grain elevator, adjoining. The other warehouse above was not sufficient to accommodate their increasing business, and hence they found it necessary to put up this addition. The new building will be used for the storage of rolling freight exclusively.

FIREMEN'S BALL TO-NIGHT.—Rough and Ready Engine Co. No. 4 give their Seventh Annual Ball in Mabbett and Conover's Hall, Fifth Ward, *this* (Tuesday) evening. Number Four is one of the most efficient companies in the Department, and deserves well of the public. Their ball will be a pleasant one, and the resulting benefit to the company ought to be substantial. We sincerely hope that it may be.

THE COMPLETE BALL ROOM HAND-BOOK.—Professor HEMPSTED, of No. 172 East Water street, the head-quarters of everything in the music line, sends us a copy of "HOWE's complete Ball Room hand-book," containing upwards of 300 dances, including all the latest and most fashionable. At this season of the year, such a book ought to sell readily. It tells all that anybody wants to know about dancing.

FOR SHEBOYGAN AND OTHER PORTS.—Captain "Long JOHN MILLER," having six more cars to take up for the Sheboygan & Mississippi R. R, proposes to leave here with his scow, the *Table Rock*, Capt. Ago, in tow of the steam tug *G. W. Tifft*, about Thursday, or Friday of next week, for Sheboygan. He will touch at Port Washington and run up to Manitowoc, of which circumstance parties desiring passage, or having freight to send or bring, will please take notice.

FANCY ARTICLES AT AUCTION.—It will be seen that CALEB WALL, the indefatigable City Auctioneer, commences, to-morrow afternoon, the sale of a large assortment of fancy articles, intended more especially for Holiday Gifts. The sale will take place on the first floor of Mr. WALL's Auction Rooms, No. 146 East Water street, and will continue for three days.

KENOSHA CREAM ALE.—We are indebted to Mr. N. A. BROWN, of Kenosha, for a sample of his famous "Pale Cream and Amber Ale." It is an excellent article of malt liquor, and will compare favorably with any that is sold in our city. HARRY BINGHAM, of the Light Guard Saloon, on Huron street, keeps it on *draft*.

THE ATHENEUM.—Mr. RILEY's benefit last night was a good one. The house was very well filled, and the performance was greatly enjoyed by the audience. Another good bill is offered for to-night. Indeed, Mr. JOHNSON spares no effort to please the public, and the public, we hope, will extend to him a liberal patronage.

MILITARY.—The Milwaukee Light Guard, Capt. STARKWEATHER, were out last night, for street drill. They looked and marched well, as usual.

THE WEATHER—NAVIGATION.—The weather continues extremely mild for the season, very much resembling our December weather last year. Lake vessels continue making occasional trips to ports along shore without difficulty.—Sunday the schooner *Dane* cleared with a cargo of 9,400 bushels of barley for a brewer at Kenosha, and the schooner *Meridian* with a load of lumber for Chicago. Yesterday the little schooner *Alpha* arrived with a load of wood from Port Washington, and returned with a cargo of merchandise and salt.

FRANK LESLIE'S BUDGET OF FUN.—This is the name of a new weekly paper published by FRANK LESLIE, the first number of which has just come to hand. As its name implies, it is devoted to fun exclusively, and is illustrated on a large scale. It is an improvement in many respects upon "Yankee Notions," but very much of the same nature, and very nearly equal to the original Dublin "Budget." SIMMONS & Co., at the New York News Depot, have it for sale.

THE MEDALLION PENS.—In speaking of these excellent pens in yesterday's issue, we were mistaken in saying that McSORLEY was the agent for their sale in this city. SIMMONS & Co., of the New York News depot, East Water street, has them for sale.

BROWN'S GIFT PICTURES.—The rush continues at BROWN'S. This morning JOHN MILLER drew two frames, Mr. WILLIAM BROWN a gold locket, Mr. M. A. MADIGAN a gold locket, Mr. Bood a velvet case, Miss BARNES a Romulian frame and others, various cases and frames. Any one paying cash for a $2 picture will receive a gift. It

☞ Another great sale of Dry Goods, Yankee Notions and Hats and Caps at the Auction Room of ALTON & AYRES, 148 East Water street, at 10 o'clock this morning.

☞ CALEB WALL has a Great Sale of Dry Goods, Toys, &c., &c , this morning.

ANNUAL SOIREE

OF THE MILWAUKEE LIGHT GUARD will be held on Friday evening, December 31, 1858, at the Newhall House. Friends of the Company are cordially and respectfully invited to attend. Tickets may be had on application to any member of the Company.

MEDICAL DISCOVERY.

ALLEN'S SPECIFIC POWDERS.—The Proprietor, a Physician, having resided in the East Indies for upwards of fourteen years, with considerable study, and perseverance after Medical Science, discovered a vegetable product of nature, which possesses extraordinary virtue, and exerts an influence hitherto unknown in the animal economy.

A solid extract from this plant (which is indigenous to China, but grows also in India,) prepared in the form of powders, will aid and assist nature, when apparently defective, and remove the cause of *sterility* in married ladies, or females, from the age of 20 till upwards of 40 years.

The Physician, being a Botanist, while in China, as a Medical Officer during the late war, discovered the active principle of the plant, which invariably invigorates the whole system without producing any deleterious effect, on the contrary, it will restore a weak and debilitated constitution to health and strength. Thus, renewing and fortifying the frame towards the desired object.

The married portion of the female sex having no offspring, can procure packages of this invaluable medicine from the proprietor, Doctor ALLEN, or MARY ALLEN, at his office, Grove street, Fifth Ward, first house south of Fire Engine No 7, or from his agent, Mr. E. A. LEE, Druggist and Apothecary, No. 100 Main street, Milwaukee.

Printed instructions and directions for the use of the medicine will accompany each package, with the written name of the proprietor, to prevent the possibility of any empiric forging his signature.

The genuine medicine can only be procured in Milwaukee, from the Proprietor or his Agents, by applying for it at their residences, or by letter enclosing one dollar for each package, which will insure the safe transmission by post to any part of the United States, or elsewhere, to the address of the purchaser.

Doctor A. will attend patients as Physician and Surgeon for one dollar each visit within the precincts of Milwaukee. And will give medical advice free, at his residence, from 9 till 11 o'clock every morning, Sundays excepted.

Milwaukee, Wis., Grove st , Dec., 1858. dec18b515dlm

QUERU'S COD LIVER OIL JELLY.—Approved by the N. Y. Academy of Medicine, in their sitting of June 3d, 1857, contains 85 per cent of Pure Cod Liver Oil.

QUERU'S COD LIVER OIL JELLY.—This delicious jelly supercedes the necessity of using oil. It retains all the virtues of the purest Cod Liver Oil in a perfectly palatable form, and even children will eat it without difficulty.

J. M. ALLCOTT and JOHN H. TESCH, only Agents for Milwaukee. dec15d1w.

☞ Look out for imitations of Lea & Perrin' Worcestershire Sauce. See advertisement of John Duncan & Sons. sep10-d1awly

Agent for
THE NEW AMERICAN WATCH,
Of Appleton, Tracy & Co., Boston.

THIS WATCH is guaranteed by Appleton, Tracy & Co., to be made of the best material, on the most approved principle, and possesses every requisite for a reliable Time Keeper. For any defect in material or workmanship, or performance, under fair use, I at all times hold myself responsible. And many applications were made lately for said Watch, the first lot having been sold in a very short time, I received a large quantity of them yesterday, and offer them to the public at very low figures. dec18 A. B. VAN COTT.

LATEST NEWS!

BY MAGNETIC TELEGRAPH

Congressional Proceedings.

WASHINGTON, Dec. 20.

SENATE.—Various memorials were presented, mostly asking for pensions.

On the joint resolution to adjourn from the 23d of December to the 6th of January, Mr Foote called the yeas and nays The resolution was adopted, the following Senators against it:

Chandler, Clark, Clingman, Collamer, Dixon, Davis, Doolittle, Durkee, Fessenden, Fitzpatrick, Foote, Foster, Gwin, Jones, Hamlin, Hammond, Hunter, Johnson of Tennessee, Reed, Rice, Wade, Ward—22.

Mr Rice, of Minn., offered a bill which was read twice and referred to the committee on territories, to organize the Territory of Dacotah.

Mr. Crittenden moved to take up the French spoliation bill for the purpose of arranging some day for its consideration, and gave notice that he would call it up on the 6th of Jan. The Pacific Rail Road bill came up as the order of the day. The following is the substance of the bill, which was introduced by Senator Rice on the 4th inst., read twice and referred to the committee on Public Lands. It is entitled a bill to aid in the construction of certain rail roads to the Pacific to encourage a settlement on their lines, and for other purposes.

Section 1st authorizes the President to cause public lands to the extent of forty miles in each side of the routes after stationed to be surveyed, and the Indian title extinguished, and that on payment of ten cents per acre by present settlers, the pre-emption laws to be extended thereto.

Section 2 provides that every alternate section for 10 sections in width on each side of said roads, and branches, be granted to the States and Territories upon the lines of the proposed roads, viz: From Lake Superior to Puget's Sound, with a branch to the navigable waters of the Columbia, from the western border of the State of Missouri to San Francisco; also from the western border of the State of Texas to San Pedro or San Diego, and the Bay of San Francisco.

Sec. 3. The said lands so granted to the States and Territories shall be subject to the further disposal of the legislature thereof, for the purpose above expressed and for no other.

Section 4 defines the conditions of sale of said lands; that 200 sections may be sold along every 20 continuous miles of the road as completed, but of such road or branches be not completed within 20 years, all unsold land shall revert to the United States.

Section 5th requires that the U. S. mails shall be transported over the said Road at prices to be fixed by Congress, the President being authorized to name the price, temporarily, until fixed by law.

Section 6th. Government shall have priority of right for all purposes of transportation.

Section 7th sets aside the 18th and 36th sections for school purposes.

Section 8th. The President shall determine the terminus with the consent of the States and Territories in which situated.

Mr. Polk's amendment to strike out from the Missouri River, between the mouths of the Big Sioux and Kansas Rivers, between the 49th parallel on the boundary of Minn. and the southern boundary of the U. S., was rejected by ayes 17, nays 29.

Mr. Foster discussed the merits of the Road chiefly in regard to the question of a tariff on the material, and moved, as an amendment, that the Road be built exclusively of American iron. This elicited considerable discussion.

Mr. Gwin considered that the bill at present provided for all legitimate protection to American iron interests.

Mr. Simmons was strongly in favor of the use, of the best material, as a matter of economy even if it should cost double, but there was no doubt that the requirement of 300,000 tons, if offered by contract, would bring out offers at the lowest price it would be profitable to manufacture, and he did not want it less.

Mr. Clingman, asked the Senator from N. Y. whether there had not been a breaking of American iron on the Erie Railroad.

Mr. Seward replied he had not heard so, and thought not. He went on to discuss the relative cost of iron in England and America, and providing that from the lower rates of wages, England can produce it cheaper inasmuch as nine tenths of the manufacture of iron consists in labor.

Mr. Bigler also spoke in favor of the use of American iron, and instanced the case of the Pennsylvania, and Baltimore & Ohio Railroad, saying one was built with American and the other with English iron.

Mr. Iverson opposed the amendment, as likely to produce a combination of iron mongers to a rise of iron. He agreed with Mr. Clingman to admit iron duty free.

Mr. Foster's amendment was then carried by yeas 25, nays 22.

Mr. Rice then spoke at length on his Pacific Rail Road bill, introduced on Thursday last—Mr. Rice introduced a bill to organize the territory of Dacotah.

Adjourned.

HOUSE.—Mr. Phillips, of Pa., gave notice of his intention to introduce a bill regulating and fixing a duty on imports and for other purposes.

On motion of Mr. Stanton, of Ohio, a resolution was adopted requesting the Secretary of the Treasury to furnish a statement of the value of the Imports from Great Britain and France into the United States, and the exports from the last named to those countries for the years 1853, '54, '55, '56 and '57. The information to be obtained from the returns of their Custom Houses.

The House, by 130 against 66, suspended the rules in order to consider the Senate resolution, proposing a temporary adjournment from the 23d Dec. to 4th Jan., and the resolution was passed 138 against 44.

New York Matters—The Atlantic Telegraph.

NEW YORK, Dec. 20.

Cyrus W. Field received from New Foundland to-day a despatch stating that on Saturday last some very good currents were received over the Atlantic Cable, and the word "Henly" was distinctly recognized, about the hour when, according to the advices received by the Arabia, Mr. Henley's large machine was to have been introduced.

The case of the indicted city official was brought up in the Court of Oyer and Terminer to-day: only three of the indicted parties were present. A *nolle prosique* was entered in the case of ex-Mayor Wood. The bonds of all the non-appearing parties, to the number of nearly sixty, were forfeited. The bail in each case was $500.

The weekly bank statement shows an increase in loans of $504,381. Decrease in specie $586,646. Decrease in circulation $2,954. Increase in nett deposits $708,126 Total specie $20,195,522.

Fatal Accident at Sea.

HALIFAX, Dec. 20.

The U. S. Mail steamship Ariel, from Southampton Dec. 1st, put into Halifax, this P. M., in charge of the 1st officer and short of coal; she experienced heavy weather. On the 8th inst., during a heavy gale, a sea struck the ship, instantly killing Capt. Ludlow and severely injuring the 2d officer and two seamen; the 1st officer was also slightly bruised; the Ariel will proceed to New York to-morrow P. M.

Tribune Washington Correspondence.

NEW YORK, Dec. 18.

Senator Wilson will introduce on Monday a Pacific R. R. Bill, the provisions of which are substantially as follows:

The President and Senate to appoint civil engineers, who, within two years, shall locate the railroad from the Missouri to San Francisco, through the region between the 34th and 35th parallel.

The road to be built by the government, provided the route selected is approved by the President, and the funds to be raised by loans, in sums of not more than a million annually.

From the passage of the act until the location of the road, all the public lands between the the aforesaid parallels shall be withheld from sale but shall be open for pre-emption to actual settlers after the road is located.

MOREHEAD'S
MAGNETIC PLASTER
The Great Strengthener and Pain Destroyer.
THE best and cheapest Household Remedy in the World, simple and pleasant in its application, certain and effectual in its results. A beautiful, scientific, external Curative, applicable for the Relief of Pain at any time, in any place, in any part of the human system, and under all circumstances. If you put this Plaster anywhere, if Pain is there, the Plaster will stick there until the Pain has vanished. The Plaster magnetizes the Pain away, and
PAIN CANNOT EXIST WHERE THIS PLASTER IS APPLIED.
Rheumatism, Lameness, Stiffness, Weakness, Debility, Nervousness, Neuralgia, Dyspepsia, Coughs and Colds, Pains and Aches of every kind, down even to Corns, are IMMEDIATELY RELIEVED. and, with a little patience, PERMANENTLY CURED, by the magical influence of the MAGNETIC PLASTER. It is the simplest, surest, safest, pleasantest and cheapest remedy in existence. Its application is universal—equally to the strong man, the delicate woman, and the feeble infant. To each and all it will prove a Balm and a Blessing. Its use is agreeable, and without annoyance or trouble. Its price is within reach of all, rich or poor; all may have it, and all should have it who are sick, and suffering in any way.
FARMERS should be always supplied with this invaluable PLASTER. It will be the Good Physician in any household, ready at all times, and at instant notice.
Put up in air tight tin boxes. Each box will make six to eight plasters, and any child can spread them. Price 25 cents a box, with full and plain directions.
D. C. MOREHEAD, M. D.
Inventor and Proprietor, 19 Walker st., N. Y.
MOREHEAD'S MAGNETIC PLASTER IS SOLD BY ALL DRUGGISTS in every City, Town, and Village of the United States. dec8h526d8lawaly

NOTICE TO TAX PAYERS.
OFFICE OF THE TREASURER OF THE CITY OF MILWAUKEE, December 13, 1858.
NOTICE is hereby given, to all interested, that the Tax List of the City of Milwaukee, in the County of Milwaukee and State of Wisconsin, for County and State Taxes for the year 1858, is now in my hands, at my office, in said city, for the purpose of collecting the taxes in said list specified, and that the taxes on the Real Estate in said list specified, must be paid before the last Monday in January, A. D., 1859, in default thereof, the same will be returned by me as unpaid to the County Treasurer of said County of Milwaukee, in accordance with the statute in such case, made and provided, and that the Taxes on the personal property in said list are due, must be paid at my said office, within twenty days from the first publication of this notice, and that in default of such payment, I shall proceed to enforce the collection of the same in the manner prescribed by law.
Office, Excelsior Block, corner East Water and Huron streets. HERMANN SCHWARTING,
dec15h515d1m Treasurer of the City of Milwaukee.

S. W. GRANGER,
Attorney and Counsellor at Law,
OFFICE, NO. 7, JUNEAU BLOCK,
East Water st., Milwaukee, Wis.

VOLUME XV. MILWAUKEE DAILY SENTINEL, TUESDAY MORNING, DECEMBER 21, 1858. NEW SERIES.

THE DAILY SENTINEL.

OFFICIAL PAPER OF THE COUNTY.

JERMAIN & BRIGHTMAN,
PUBLISHERS AND PROPRIETORS.
T. D. JERMAIN,.....E. E. BRIGHTMAN.
RUFUS KING,.....Editor.

TERMS OF THE SENTINEL.
Daily $7,00—Tri-Weekly $4,00—Weekly $1,50
INVARIABLY IN ADVANCE.

MILWAUKEE:
TUESDAY MORNING, DEC. 21.

The Deed and the Actors.

The *News* of Sunday publishes and highly praises the speech delivered by Senator Douglas at New Orleans, and then adds:

It is claimed in some quarters that it was for the promulgation of such views that the late Senatorial caucus at Washington degraded him. The instigators of that vindictive and cowardly act will find that "there is more to be said on that subject."

The "instigators" of this "vindictive and cowardly act" were the President of the United States and his Cabinet Officers, composing our "National Democratic Administration." The executioners of the sentence against Mr. Douglas were his "National Democratic" colleagues in the U. S. Senate. And though a few of them at first opposed the deed, they *all*, with the exception of Mr. Broderick of California, (who, like Mr. Douglas, is looked upon as a rebel) finally acquiesced in and abetted the "cowardly act." It is purely, therefore, a family matter, and the *News* may discipline those of its own political household to its heart's content.

Mr. Buchanan Against Popular Sovereignty.

The Washington correspondent of the *Montgomery Advertiser and Gazette* writes on Dec. 5 as follows:

Several of the Alabama delegation visited the President on Friday last, with other Southern Members. The Vice President was also present. A free and easy conversation followed on the general topics of the day. Old Buck looked hale and hearty, and was not afraid candidly to express his views, and without reservation. And what think ye, Southern men, *James Buchanan had to say of Squatter Sovereignty?* He said: *"It is a doctrine infinitely worse than the Wilmot Proviso! and if the South conceded this point it sacrificed what it had been contending for these twenty years."*

I have tried to give the precise language; and this was uttered in the presence of Breckinridge. Was it not an appropos hit in consideration of his silly Douglas letter?

It is becoming daily more apparant that "Popular Sovereignty" is the "apple of discord" in the ranks of the "National Democracy." Mr. Douglas has planted himself upon that single plank and that "one idea" forms the staple of all his speeches. The President, on the other hand, brands the doctrine as heretical, and excommunicates Mr. Douglas for avowing it. The masses of the party South side with the President, while those of the North back up the Senator.

For the Sentinel.

The New Charter—City Sewerage.

Mr. Editor:—Enclosed with this please find and give to your readers a series of sections on the subject of sewerage. This draft was first prepared for the City Charter Committee, but the time left to the Committee was too short to read and investigate it. It was stated that the system proposed was a good one, and that we would need it in a year or two, but for the present it was objected to on account of the expense.

It was the intention of those who first proposed the revision of the City Charter by a City Convention, as provided for in the amendments of last winter, that a Charter should be framed, which would be sufficient for a number of years to come, without being amended over and over again, and I hope the City Convention will carry out this intention.

The amount of improvements made and to be paid for has been objected to by many of our tax-payers, but far more the uselessness for the time being, of many of the expensive improvements made. We have extended our streets through the lower grounds, and enclosed lots and blocks by walls of earth. After so confining the water on them, we declare them nuisances and fill them up to the grade of the streets, or nearly so. After a few years, when the lots are to be built on, we excavate for the basements of buildings and carry the earth again to some other place, in many instances to be again removed from there, after a few years.

Now I submit that this system, or more properly speaking, absence of any system, is too expensive for any people, and the sooner a proper system of drainage is provided, the more money will be saved.

In the examination of the subject of sewerage I have been materially aided by valuable reports on the subject, for which I am indebted to the kindness of Alderman Wahl, of the city of Chicago, and it may be proper to state here, that when the details of a system of sewerage are to be determined upon for this city, further valuable information may be received from E. S. Chesbrough, Esq., Chief Engineer to the Board of Sewerage Commissioners, of the city of Chicago, who has kindly offered to give the same, whenever called upon, at his office.

Our citizens, as well as our city authorities have not, as yet, given the attention to the subject of sewerage which it would be proper to give to this important branch of the necessary improvements of our city. The introduction of water works into our city has been from time to time agitated by our citizens, but even the discussions on a subject, so necessarily connected with a system of sewerage, have not led to a proper appreciation of its importance. Large amounts of money have been expended for sewers in the different Wards, but without any proper system, and some of them are entirely valueless, some are of mere temporary value, and but very few will be of any use in connection with a proper system of sewerage, if such should be adopted.

Even in Europe, no material improvement had been made in the sewerage provided for the different cities since the time of the Romans, until the attention of the public and of the proper authorities was directed to the subject by the ravages of Asiatic Cholera, in the cities and parts of cities, the proper drainage of which had been most neglected. Sewers had been at first intended to convey surface water only, and resulted from the necessity of covering or arching over open ditches, which would naturally be first resorted to. But now it is recommended by the best authorities on the subject, that sewers be so constructed as to convey not only the surface water and filth, but the contents of water closets, and all kinds of refuse and filth from houses, and to drain the soil to a sufficient depth to secure the dryness of cellars. Where streets cannot be kept clean enough to permit nothing but water into the sewers, catch-basins, or trapped gullies should prevent the heavy materials from entering the sewers.

On applying the results obtained in other cities to our city, there can remain but little doubt that sewers ought to be constructed of brick, and those of sizes less than fifteen inches in diameter of pottery ware pipes which articles, it is confidently expected, can be manufactured here for the purpose better and cheaper than perhaps any where else. The form of the larger sewers ought to be circular, and of the smaller ones oval, and every twenty feet, or as often as a house is likely to be built opposite, openings of pottery ware ought to be inserted, so as to provide for connections with house drains without breaking the sewers open.

As to the size of sewers, the views of engineers seem to have, of late years, undergone a radical change. The idea that all public sewers should be large enough for men to enter, has been given up to agreat extent. The quantity of rain fall flowing from a given district during rain storms into any sewer should be estimated, and the size of the sewer should be determined accordingly. Where sufficient declivity can be given, pipe sewers may be sufficient to drain districts, for which, under the old system, sewers of six feet in diameter would have been but

It has been found upon actual trial at Chicago, that where the pipe sewers receive the rain water from all the houses on both sides they keep clean without any other water being let into them. But to avoid failure or the necessity of digging up streets to remove obstructions from the pipes they have, at Chicago, where the declivity in pipe sewers is only one in five hundred, and in brick sewers only 2 feet per mile, they place man holes (circular wells three feet in diameter, covered with wood at distances rarely exceeding one hundred feet, and stir up deposits by a hose and jointed cane rods while flushing the sewers. This method of cleaning will, however, only in the flat parts of our city, near the river, have to be resorted to, and even there it can be avoided to a great extent by laying sewers through tiers of blocks from the river up to the higher parts of the city, so that the water coming from the higher parts with greater force will keep even the lower parts of the sewers clean.

As to the cost of these sewers sufficient data are before me to show, that even that consideration is in favor of the proposed system in preference to our present wooden sewers.

There is less objection to sewers emptying into the Milwaukee river (also the Menomonee) than there is to a similar system in other cities situated at the mouths of rivers near the sea or lake shore. The volume of water in the river changes, and is purified to a great extent, daily, by the strong currents from above, and by the rise and fall of the lake. The spring freshets and the heavy showers in the summer, will cause floods, which will scour the river of the filth discharged into it by sewers, and the more the country at its headwaters is cleared and sheds off the rain-fall, and the more the current within the city limits is regulated and confined by docks on its banks, the more thorough its cleaning will be.

The mode of taxation, by which the means are to be raised to defray the expense of the construction of sewers, is the most difficult part of the subject in relation to which probably the greatest difference of opinion may exist. I propose to tax each lot as near equal as can be in the same proportion in which it is to be benefitted by the drainage provided, and if that object can be attained more perfectly than is below provided, I shall be obliged for any suggestions to be given in relation to it.

As in most cases it will be impracticable to complete in one season a net or system of sewers over an entire tier of blocks or district which is to be drained to the river through a main sewer, it is proposed, that after the outlines of such a district have been determined, a diagram of the district and of the sewers and an estimate of the cost have been made and the amount assessed on and apportioned among the different lots, then so much of the work as will be practicable and desired to be built by the property holders of the district, may be completed each year, and the amount expended during the year taxed against the different lots; the amount first assessed ag ainst each lot to be collected from each lot opposite to which he owners are actually extended, and the residue to be a general tax on all the real estate in the district.

I would rather entrust the initiation of a proper system of sewerage in our city to three Commissioners, elected for that purpose, and an engineer, to be employed by them, than to leave the work to be done under the direction of the Street Commissioners of the several Wards.—From the reports of eminent engineers, and the Superintendents of the sewerage of various cities, it appears, that the most accurate engineering and superintending of work and material is required to insure success to the system proposed, and therefore some better guarantee should be given, that proper persons will be employed for these purposes, than we have at present.

There are other duties, which with great propriety could be assigned to these sewerage commissioners, and which would make these officers so useful to the city, that suitable salaries could be paid to them. Among other subjects, that of grades is so near connected with a system of sewers, that no changes of grades ought to be made, or new grades established, without the sewerage commissioners first having reported in favor of the same. But your space will probably not permit to extend further these premissory remarks. H.

Chapter— Sewerage.

Sec. 1 and 2 prescribe the mode of electing and casting lots to decide the length of terms of the first sewerage commissioners. Some propose election by the people, some by the Common Council, some want the legislature to put the names in the Bill. Afterwards every year one commissioner is to be elected by the people.

Sec. The said commissioners shall be named the board of sewerage commissioners, and a majority of them may do any act, which by law the board of sewerage commissioners are authorized to do.

Sec. It shall be the duty of said commissioners to examine and consider all matters relative to the thorough, systematic and effectual drainage of the city of Milwaukee, and they are authorized to do whatever shall be found necessary or desirable to obtain the benefit of all the information and experience to be had on said subject,

Sec. The said commissioners shall have power to employ engineers and such other persons as may be necessary to enable them to do their duty. Provided that they shall report forthwith the conditions of any contract with such employees, and an estimate of the expense connected with the labor to be performed to the Common Council and that any such contract shall be terminated, when so directed by the Common Council.

Sec. It shall be the duty of the said Commissioners to divide the city of Milwaukee into sewerage districts, constituting such tiers of blocks, and each district of territory (terrain) as by the nature of the ground and the grades established or to be established will most practicably and properly be drained through one main sewer and branches, into the Milwaukee or Menomonee rivers or Lake Michigan, into one sewerage district; and to make or cause to be made, as fast as the preliminary surveys can be completed, a diagram for every such district, showing the blocks, lots and tracts of land, the grades of streets, of the gutters, the main sewer to be constructed, the branch and the minor sewers, the receivers, and the receiving basins, and their connections with the sewers, and any other data deemed by them necessary for information. They shall further make a statement of the times and periods at which the different parts of the system proposed, in their opinion, should be carried out, and an estimate of the cost of such work, and shall assess the same against and among all the lots and parts of lots and lands within the sewerage district in the following manner: The cost of any minor sewer, which is to be laid in any street or alley, to provide drainage only for the lots fronting on such street or alley, to be assessed against such lots in proportion to their front on such street or alley, and to the amount to which each lot is to be benefitted by the drainage to be provided. All lots, the private drains from which are to connect with any main sewer or main branch sewer, which is to be constructed in the street or alley fronting on such lots, and of larger size than the minor sewers, for the purpose of conducting the sewerage from the minor sewers to the main sewers and the rivers or lake, are to be assessed in the same ratio only as if a minor sewer as aforesaid was to be constructed in front thereof. Provided that, in no case, the assessment against any lot shall exceed the cost of a minor sewer to be put down opposite the front of any such lot. The residue of the cost of the entire system of sewerage for such sewerage district shall be raised by a sewerage tax upon all thereof, estate in such district to be collected with the general taxes; such sewerage tax not to exceed, in any one year, by one half, the amount actually expended during such year, in such district.

Sec. On the completion of such diagram statement, estimate of cost and assessment, they shall give notice in writing to the resident freeholders of such district that a plan of sewerage and assessment are open at their office for their inspection. Any person shall have the right of filing with the said commissioners, written objections to the said plan and assessments, stating therein the nature and reasons of his objections, and may also suggest improvements to said plan and assessment.

Sec. The said commissioners may re-consider and modify said plan and assessment, and at the expiration of twenty days from the time the notice prescribed shall have been given to the resident freeholders of the district, of the plan and assessment being open for their inspection, may report the same to the Common Council for their approval.

Sec. The Common Council shall take such plan and assessment into consideration, and within thirty days after receiving a copy of the same approve of them, or return them to the said Commissioners, with a statement in writing of their objections to the said plan or assessment, or of any alterations or improvements thereof, which they may deem desirable.

Sec. If the Sewerage Commissioners, in consideration of the objections of the Common Council, find it necessary, or expedient to reject the said plan, or assessment, they shall forthwith prepare another plan, or assessment, which shall be subjected to the same course of objection and revision, as herein provided, for the first plan and assessment, and so until some plan and assessment made by them for such sewerage district shall be approved by the Common Council.

Sec. If any Sewerage Commissioner shall in any case be directly interested in any property liable to be assessed with benefits on account of any proposed sewer, the Common Council shall, in such case, appoint some disinterested person to act in his stead in assessing in such particular case the benefits to arise from such improvement.

Sec. After any such plan of sewerage and assessment of benefits for any sewerage district shall have been approved by the Common Council, the Sewerage Commissioners shall advertise for bids to do so much of the work as they shall deem proper to be completed during the current year, and shall require specimens of brick, pottery ware, and any other material to be furnished, and shall let the contract to the lowest and best bidder.

Sec. Such contract shall require the contractor to receive for so much of the work as has been assessed against the lot opposite to the front of which any such sewer shall extend, in certificates against such lots respectively, and the residue of such contract shall be paid out of the proceeds of the general sewerage tax, to be levied on the real estate within such district by the Common Council, on the recommendation of the Sewerage Commissioners as provided in Sec —.

Sec. In all cases the work shall be subject to the superintendence and direction of the engineer of the said Board of Sewerage Commissioners, and no contractor shall be entitled to demand compensation for any work executed by him, or to recover for the same in any form of action, unless such work shall have been approved by the engineer of the said Board, or by some person by him or by said Board substituted for said purpose.

Sec. Upon the completion of such contract and the approval of such work by the said engineer, or the person substituted for him, as prescribed, the Sewerage Commissioner and Engineer shall certify to the Comptroller the amount of work done in front of each lot, and it shall be the duty of the Comptroller to give to the contractor the certificates against lots to which he is entitled in a like manner as in case of other work being chargeable to lots, and such certificates shall be in every way proceeded with and shall have the like effect as certificates given by the Comptroller for other work chargeable to lots.—The Comptroller shall certify to the Common Council the residue due to said contractor after deducting from the amount of the contract the amount of certificates issued, and the said Common Council shall authorize the issue of an order for such remaining amount upon the fund of the respective sewerage district.

Sec. In letting so much of the work to be done during any subsequent year, and in superintending, approving of and giving benefit certificates for the same against the lots, parts of lots and parcels of land within such sewerage district, the said Commissioners, Comptroller, Common Council and other city officers or persons, shall be governed by the same rules as prescribed for the work first to be done in such district after the plan of sewerage and assessment of benefits shall have been approved by the Common Council.

Sec. No plan of sewerage for any sewerage district, the execution of which has been actually begun, shall be materially deviated from, or changed, or the limits of any district altered, without first two-thirds of the resident freeholders of such district petitioning the Board of Sewerage Commissioners for such change, and such proposed change shall be subjected to the same course of objection and revision as the plan first proposed.

Sec. In case any of the present sewers can be used in connection with any sewer to be built under this act, the diagram to be furnished for such district shall show the present sewer as well as the sewer which it will be proper to build in its stead, and the estimate for such district shall be made with a view to build instead of such sewer another as soon as it will become necessary, in accordance with the improvements of sewerage adopted.

Sec. Any contractor or other person acting under the direction of the Board of Sewerage Commissioners may lay sewers in and through all alleys and streets of the said city and through any breakwater into Lake Michigan and also in any highway of Milwaukee County whether within the limits of said city or not. Provided, that it shall be their duty to repair the streets and alleys upon the completion of such sewers and to arrange the said sewers with respect to the gas and any water pipes, in such manner as the Common Council shall direct.

Sec. The said Board shall prescribe the location, arrangement, form, materials and construction of every drain or sewer for any lot in said city and emptying into the said public sewers, and to determine the manner and plan of such connection. The work of constructing shall be in all cases subject to the superintendence and control of the said Board and shall be executed strictly in compliance with their orders, but the cost of such private sewers shall not be included in the estimate of the cost of the general plan of sewerage of any district, and shall be a charge upon the lot or lots, for whose benefits such private sewer shall be constructed.

Sec. It shall be the duty of the said board to see that proper drains or sewers are constructed from every lot in said city, which in their judgment requires it, and that such private drains or sewers are made to communicate with the public sewers in a proper manner, and they shall have power to require such number of drains or sewers to be thus constructed as they shall deem expedient.

Sec. The said board shall have at their office, ready for examination of the parties in interest, the specifications of any private drain or sewer so ordered to be constructed, and they shall give to the lot owners the same notice which is prescribed to be given in cases of lots being declared nuisances on account of water stagnating thereon, and in case any lot owner neglects to do the work required of him to be done within the time specified in said notice they shall advertise for proposals and let the contract, and at the completion of it certify to the comptroller the amount due to the contractor, and thereupon the comptroller shall give to said contractor a certificate against such lot, which shall be proceeded with and shall have the like effect as other certificates given for work chargeable to lots.

Sec. Any person who has taken such contract from the said sewerage commissioners to construct a private drain or sewer from any lot, shall be authorized to enter upon such lot and construct thereon such drain or sewer, and for that purpose to have free ingress and egress upon the same with men and teams and to deposit all the necessary building materials and generally to do and perform all things necessary to a complete execution of the work.

Sec. Whenever any lot or parcel of land is subdivided by sale or any other contract after the assessment of benefits accruing to it by a system of sewerage shall have been made, and before such system shall have been fully carried out and extended to such lot and the assessment on such work paid, the parties so contracting may give notice to the sewerage commissioners of such sub-division and in such case and when the said commissioners shall in any other way become cognizant of the fact of such sub-division, they may make an equitable apportionment of the said benefit tax against said lot between the different parcels of it. But if by neglect of the owners of the lot so sub-divided no such apportionment shall be made, then the entire lot shall be liable for the said tax.

Sec. No person shall break open any public sewer except by the consent and under the direction of the sewerage commissioners, and any person who shall do so or willfully or maliciously obstruct, damage or injure any public or private sewer or drain in said city, or willfully injure any of the materials employed and used in said city for the purpose of sewerage, shall be deemed guilty of a mis-demeanor and upon conviction thereof be fined not more than——hundred dollars or imprisonment in the county jail not to exceed——months.

Sec. The commissioners shall have the power, and it shall be their duty, to make such changes in the grade of streets and alleys, and in the construction and arrangement of the gutters along the same, as shall serve effectually to carry out the purposes of the act, and to cause a rapid and effectual removal of the surface water from the same, and to this end may enter upon, use and obstruct the said streets for such time as may be necessary to effect the said object; provided that no such change of grade in any street or alley shall be made until the Common Council have first approved of such change.

The Senate Committee.—Mr Hunter, of Virginia, a State next door to bankruptcy, is Chairman of Finance! Mr. Clay, of Alabama, an inland Lawyer from a State that never builds a ship, is Chairman of Commerce!

Post Offices and Post Roads, are assigned to Mr Yulee, of Flordia, who gets his letters by bridle-paths through swamps. The Federal Capital to Mr. Brown, of Mississippi, which threatens to dissolve the Union! The Library to Mr. Pearce, of Maryland, which makes it a crime to teach the Bible.

Gen. Davis, the other representative of the "war on the Union" Mississippian, is made Chairman of Military Affairs. Mr. Green, who was elected by the Border Ruffians, is made Chairman of Territories.

It is not probable, because they were ignorant of the capabilities and claims of the several States, that these Democratic gentlemen voted themselves into such inappropriate places. It is simply because, being all Southerners, they feel it necessary for the country that they should all be Chairmen.—*Albany Eve. Journal.*

The Wanderer's Errand.—The Washington correspondent of the *Journal of Commerce*, writing Dec. 13th, says:

The Wanderer slaver case was deliberately made as an experiment to test the constitutionality of the United States laws against the slave trade. Mr. Lamar, of Georgia, gave notice to Secretary Cobb that the case would be made.

For the Sentinel.

The Bishop of Buenos Ayres—The Western Case and the Seebote.

The *Sentinel*, of the 16th inst. brings another lengthy communication, from Watertown, Dec. 13, against the *Seebote*, which is, indeed, too silly and ridiculous a manufacture, to deserve a particular attention. For in our opinion it comes near to a perfect nonsense to make a Milwaukee city paper responsible for what the Bishop of Buenos Ayres has done or may have done. If, as it is stated in said communication, the Bishop of that place has excommunicated all Free Masons, he has no doubt acted in strict accordance with the laws of his Church, which "declare their doctrines incompatible with those of the Catholic Church." If, however, the Watertown writer wants to know the reason why the Catholic church has given such a law, as forbidding all secret societies, he had better address himself to the proper authorities, and not to the *Seebote*, which is merely a political paper, and in no way the expounder and interpreter of Catholic doctrines and canonical laws. To make the *Seebote* responsible for that act of the Bishop of Buenos Ayres, or any other Bishop of the Catholic Church, is, to our mind, just as silly and ridiculous as if we would take the Watertown advocate of human rights to task upon that cruel law in Protestant Sweden, which banishes from the country everybody who dares become a Catholic, and confiscates the convert's property to the State. But a few years ago, the distinguished painter, Nitzen, suffered the full penalty of this iniquitous law; and more recently still, several ladies have had the same severe sentence passed upon them. Heartless, indeed, must be the persecutor, who does not spare even the weakness of women!

As to the almost entirely exhausted Montana case, we must confess, that we don't find anything at all in it, that seemed to us extraordinary or of a high-handed outrage, because we are already accustomed to such "infamous deeds," in our own enlightened country of religious freedom, though we don't hear of any, even the slightest "outburst of indignation, so spontaneously escaping from the hearts of a legion of freemen at the sight of inhuman restraint of religious liberty." Look, for instance, at the statutes of Massachusetts. In Boston vagrant children are picked up in the streets and supported in the Alms House. A great portion of them are the children of Catholic parents, but notwithstanding this fact, a Catholic priest is not permitted to enter the institution to baptise or teach them in the faith of their parents, while the Protestant clergy are admitted to converse and proselyte the inmates without restraint.—Well, what kind of religious freedom is that?—Is this perhaps not Montana case? But where is the disapproval, the indignation, the outcry of that legion of freemen? Is a christian, a Catholic child perhaps less valuable, less precious, than a Jewish child?

Of course, as the Catholics are only treated as "dogs" and "hideous monsters" by the advocates of the Jews of Milwaukee, the children can't be any better, they are wretched outcasts, for whom there is no right, no justice, no liberty. How would it appear, even did we possess the power, for us to rebuke other countries for a lack of religious freedom, when such glaring intolerance prevails at home? What inconsistency to hurl anathemas at the Pope for the perpetration of an act of these "dogs" and monsters" of which we ourselves are guilty? Yea indeed, the Pope might call to our memory the bloody days of Philadelphia (5th, 7th, 8th May, 1844,) when arson and murder walked forth, like hideous spectres, in its streets; when the Catholic was made to witness scenes harrowing to the tenderest feelings of his heart; scenes such as the darkest forebodings would scarcely have anticipated; his churches burnt to the ground by infuriated mobs; the ministers of his religion threatened with assassination, and trembling for their lives; seminaries of learning, residences of the clergy, valuable libraries, all consumed in the ruthless flames;—and what is far more dreadful still, the solemn quietude and sanctity of the tomb itself invaded, the last sacred resting place of the dead torn up by the hands of the living,—and all these atrocities perpetrated in the nineteenth century, and all done in the name of that very same freedom and humanity that gives now expression to a fulminant indignation in regard to the abduction of a Jewish boy, who insists on being a Christian, and who ardently desires that also his dearly beloved parents might embrace the faith of that "Jewish child," before whom the whole Catholic world falls down and adores! And you, Watertown writer, great sentimental philanthropist, you want to have rebuked the Pope by our Government for the outrage he has inflicted upon the cause of religious liberty?—*Difficile, est satiram non scribere!* SEEBOTE

From Washington.

Refusal to Impeach Judge Watrous—The Boarding of the Steamer Washington Explained.

Special Despatch to the N. Y. Times.

Washington, Dec. 15.

The House of Representatives to day by a vote of 91 to 111, refused to institute an impeachment against Judge Watrous, of Texas. Many members who entertained strong suspicion of corruption yet voted against impeachment, as they regarded the evidence as insufficient to justify any hope of conviction by the Senate. Judge Watrous, it is rumored, will immediately resign. While the vote was being taken, the scene in the Hall was impressive. Many Senators were grouped in the lobby, anxiously noting each vote as the roll was called.

The President, to-day, communicated to the House of Representatives the information called for by Mr. Clay's resolution. The communication merely gives the facts, as furnished from the State and Navy Departments. Secretary Cass sends a letter from Mr. Dodge, our Minister at Madrid, in which it is stated that Spain refuses the mediation of England in her Mexican quarrel. Numerous extracts are also given from the correspondences of Mr. Dallas, and from the Spanish Secretary for Foreign Affairs. Then follow from the Navy Department two letters from Captain McIntosh, with accompanying documents.

The first letter is from Flag Officer McIntosh, received by the Washington, in which he states briefly what he had done and the policy he should pursue. The second letter gives details and endorses letters from Captain Jarvis, who first boarded the Washington, and Captain Aldham, of the British Navy. This correspondence exhibits the facts that British officers visited the Washington, that Captain McIntosh complained, that Captain Aldham attempted to justify the act on the ground that the ship was in waters covered by a British protectorate. Capt. McIntosh, in his rejoinder, was still belligerent, when Captain Aldham explained that the visit was entirely of a friendly character, such as is usual among vessels lying in port.

Captain McIntosh responds that the visit might have been friendly, but the inquiries made on board were highly objectionable, as they had the appearance of an attempt to search an American ship.

The British Commander closes his dispatch by openly disavowing any such intention, declaring that his Government had entirely abandonded all such claim and that Her Majesty's officers were specially instructed to abstain from visiting or searching an American ship.

This candid avowal necessarily reconciled matters and restored kind feelings. The Government here is highly pleased with the conduct of Flag Officer McIntosh, and, though his health is bad, Secretary Toucey has not determined to recall him.

After reviewing the whole matter, the current impression is that the affair of the *Washington* is fortunate rather than otherwise. While our officers have shown their resolution to vindicate our rights, the British officials acknowledge their total abandonment of former pretensions.

Weakness of the Stomach and Indigestion. Another Great Cure Effected by Brehaut's Holland Bitters.—The wife of Pieter De Witt, living in Holland Town, Sheboygan county, Wisconsin, suffered much from Weakness of the Stomach and Indigestion. She had been under a physician's care for some time, but the disease seemed to baffle even his skill. She purchased some HOLLAND BITTERS at our office, which has given tone to her stomach; her appetite and strength are returning, and we firmly believe that this is another great cure effected by your medicine.

We have still to record many wonderful cures effected by this remedy, but must wait another opportunity. One thing you can rely upon, that we have published are from persons much respected in our community, and are literally true. J. QUINTUS.

FOR SALE OR RENT.

City Auction Room.

I PROPOSE to rent a few Store Rooms of the lower Floor of the large Frame Building opposite the new Post Office on Wisconsin st. I also intend to rent the upper rooms for Offices at a rent ranging from Fifty to Seventy-Five Dollars per year. The stores I will rent for Three Hundred Dollars per year. There, probably, is not a better location for a Family Grocery Store in the City, and for offices above. I am informed that on [illegible] will be re- [illegible]

In order to [illegible] by wheat growers for "Canada Club Wheat," for the purpose of renewing the seed, the subscribers are now receiving a quantity of Club wheat direct from the wheat growing districts of Canada West, which they are prepared to sell for seeding purposes.

As the quantity is limited, an early call will be necessary in order to secure the seed. Orders may be left with John Helliwell, Waupun, or with the subscribers in this city, where samples can be seen.

oct28d56d2m HELLIWELL BROS.

nov13

City Auction Room.

FOR RENT.—That well-known Boarding House directly opposite the New Post Office, on Wisconsin St. I will rent it for 18 months to a good responsible person. It is one of the best locations in the city.
nov1 O'LEB WALL.

To Lumbermen and Capitalists.

FOR SALE.

OWING to the death of the President of our Company, we offer for sale our extensive Steam Saw Mill, situated at La Crosse, Wis. Said mill consists of one Gang, one Slabbing Gang, Ripping Saws and one large Circular Mill. The whole complete, and being of the most substantial manner, and of the latest improvements, capable of manufacturing from 70 to 80,000 feet lumber per 24 hours. Also Lathing machinery complete. This Mill is admirably situated, for doing an extensive business, and being below the mouth of Black River, has the advantage of the entire run of the River logs to a sure its supply from.

We have also some seven acres Land attached, together with Booming facilities immediately in front of the Mill for 2,000,000 feet of Logs.

We offer the above for sale at prices and on such terms that cannot fail to interest Lumbermen. Or if we can secure the services of a Practical Manager, having sufficient means to take an interest in the enterprise, we would make terms of mutual advantage to all contracting parties.

For full particulars address
WILLIAM FISHER, Sec. Ohio Mill Co.
Post Office Box 457,
Cincinnati, Ohio.
nov?d&4d2m

Jefferson Mills for Sale.

THE above Mill is located at Jefferson, Jefferson Co., Wis., on Rock River, and is situated in one of the best wheat growing counties of the State. The Mills contains three run of stone, and are arranged for custom and merchant work. Terms very easy. Address N. O. HUBLBURT,
sep29b2?6d3m Jefferson, Wis.

City Land Office.

ALBANY HALL AND ROTUNDA.—These two magnificent rooms can now be rented for Balls, Lectures, &c., on reasonable terms. The Hall is one of the finest in the country, capable of accommodating 1500 people, with dressing rooms and other conveniences attached. The Rotunda which opens into it, is tastefully decorated with statuary, and will accomodate from 600 to 700 people, it is intended to be used either in connection with the Hall as a supper room, or separately for lectures, concerts, &c., when the other is larger than required. These rooms have both been planned with the special view of allowing the rapid egress of large audiences in case of sudden alarm, and are constructed so as to command the perfect confidence of the public. For terms, which are very low, apply to sep24 OGDEN & WALL.

FOR SALE,

A GOOD FARM, half a mile from Sheboygan, on a plank road, containing 80 acres, 40 acres well timbered, and the balance in good state of cultivation. There is on the premises a good frame house and a large orchard containing about 3 Offsit trees 6 years old. All well fenced.

Also, a farm, 3 miles from Milwaukee, containing 80 acres, 50 acres of good heavy timber and 10 acres improved. There is also on said premises a good stone quarry.

The above Farms will be sold low for cash, or exchanged for City property. Enquire of
